cf=Cumulative Frequency

### 1. was my teacher

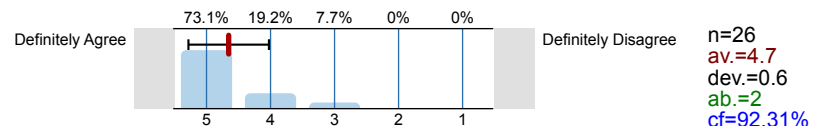

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

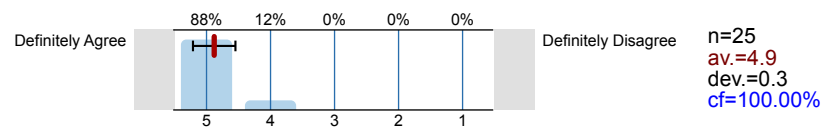

- Engaging students during the lessons
- Explained every concept well. Gave time to answer everyone's question. Good summaries on the topic.
- Extremely clear teaching. Put in a lot of effort to ensure that his explanations are thorough and that everyone in class follows the content materials. Explains things much better than the lectures. Clearly passionate.
- Francisco is an AMAZING teacher. He explains concepts and ideas very well and he does his best to make sure we understand. He has the perfect balance between encouraging participation but not making anyone feel under pressure. Furthermore, he also really took the effort to learn our names (very quickly, too!) which is a very kind gesture.  
He is also really nice, positive and friendly - which is certainly appreciated on a Monday morning.
- Goes through the intuition for the problem set
- Great teacher who cared about what students struggled with and looked to involve everyone in class discussions
- Great teaching style, structured approach, friendly, garnered participation
- He explains stuff very clearly and always asks to make sure everyone of us understand the material. He also asks questions in class to make everyone involved so I think everyone pays attention to the lesson very well.
- He is a brilliant teacher who is always prepared for the classes and willing to offer help whenever students need.
- I believe the pacing of his teaching was excellent. He knew when to speed up when content was easy and slow down to more thoroughly cover more complex concepts.
- Manuel is very kind and attentive. He is always ready to help and offers his office hours for those needing of it.
- Really enjoyed his teaching!!
- The interaction level in classes was good, and it worked really well to include his own comments/solutions on the harder parts on the problem sets
- The teacher tries to get all of the class involved and always encourages questions to ensure we understand the content and concepts.

- Very good intuition explained!!!
- Very methodical answering of questions and good at involving others to participate in the class
- Went through derivations clearly, often tried to explain the intuition behind working
- really good teacher maybe best I've had at this university

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- I wish the teacher's problem set answers were on moodle. They were better than the ones provided to the whole class. I had to ask him for each individual Problem Set answer sheet, which probably got annoying for him.
- I would say his marking is really far too generous.
- Making sure we cover every question
- Maybe less time on concepts that have been repeated and more time on maths.
- More time should be given to this teacher to teach the lessons.
- NA
- NA
- hard to think of anything maybe it would be nice if the concepts explained in class can be typed out and emailed to us later
- time management of class

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
