1. was my teacher

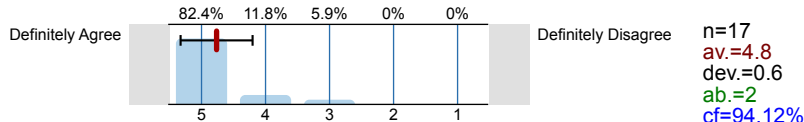

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

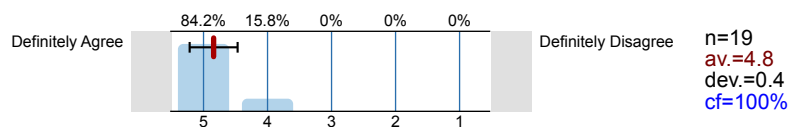

- Best teaching ever! He really distils difficult economic concepts and is always happy to answer any questions
- Engaging the class
- Excellent communication, explained concepts well, strong uses of examples
- Explain things very clearly.
- Francisco went over the topics from lecture again in class in a way that was not repetitive but that helped to create clarity on the topics.
- Good at explaining intuition behind ideas
- His explanation of terminology, concepts and econometric theory are very clear and useful to follow understand and replicate, the use of diagrams and they whiteboard to do so is also very helpful.
- His teaching style is phenomenal. He keeps the class engaged, even at a very late time of day. People stay afterwards to clarify questions and he is always ready a blue to help. He replies to emails really quickly.
- Manuel was a great teacher. He effectively and enthusiastically taught the material, and I have enjoyed learning from him.
- Really good at explaining tricky concepts clearly, good humour made class less boring, made sure to cover all the content as well as questions, learnt a lot from him

- The problem sets were somewhat adequately explained through in the class
- Very clear explanations
- Very engaging
- Very thorough explanations on intuition which I can appreciate. Also gives interesting examples related to the questions.
- Wonderful teacher, helpful, one of the best I've had.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- -
- Classes can be made shorter if the problem set is quite short
- Honestly nothing. At this point I couldn't ask for better.
- I do not think anything needs to be improved.
- N/A
- N/A
- N/A
- NA
- Technical details explored more
- The class wasn't balanced in spending equal time on each question - sometimes one took a lot of time so the others were rushed through. Also, getting detailed step-by-step solutions would be much more helpful than just oral explanations with a note or two to refer to later.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

- Brilliant class teacher, explained everything in great detail
- Couldn't be nicer engages with students and covers most of the material.
- Efficient and thorough in explanation
- Enthusiastic, dilligent.
- Excellent energy, great engagement with the class, was willing to discuss topics not necessarily on the problem set to answer student questions.
- Explained most concepts well and in detail
- Explanations of the PS questions, were very clear and detailed.
- Fantastic at explaining and taking questions, staying within the course time limit whilst also keeping class interactive
- Francisco made himself available for office hours and replied very quickly to emails. He made it easy to participate in class without putting too much pressure on students; if the answer was not correct, he help them get to the correct answer.
- Great at explaining
- He answers every question very well, and tries to increase class engagement

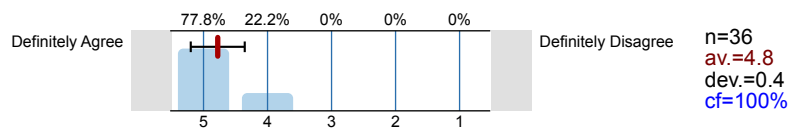

- He engage the students and really helpful
- he goes into detail and is very engaging
- He is a great teacher!
- I LOVE how he explain things as if we were 5 year old. It ensures that everyone (including those who may not be econ students or perhaps forget previous years econ contents) actually understand what's going on. Very good teacher, highly recommend.
- Incredibly good teaching! He helps us understand each concept so clearly - I leave the class knowing about my topic and more confident to teach others about it.
- In depth explanations of the derivations and difficult ideas.
- Manuel (Francisco) was a really great teacher and his classes were very enjoyable and interesting. He went above and beyond in classes to explain all questions in detail. He truly cared that all students understood all the concepts. He made class very interactive and encouraged comments and questions from everyone. Picking people to answer questions was effective in encouraging participation and the sharing of diverse viewpoints. Also, his notes were very useful for recapping the topics.
- Manuel takes a very inclusive approach to Teaching; ensuring that every student understands the material being covered prior to moving on. I have particularly enjoyed his in-depth Maths Work to explain the mechanisms at work behind the material we learn in Lectures.
- One of the best teachers i have had at LSE, takes questions, explains clearly, wonderful educator
- Passionate teacher, describing all concepts and answer framework really clearly and logically. I managed to address all misunderstandings after the class. Also the teacher encourages in class discussion, promoting students ideas, which helped me to understand others' perspectives.
- Really engaging and always responsive the questions. A really fun, excited energy that keeps you motivated and engaged throughout the class and course. I'm really happy to have had him as my class teacher
- Teacher encourages student participation and class is engaging.
- Very good at explaining difficult concepts, made his own notes available which were really useful to understand the problem sets, encouraged us to ask questions, engaging teaching style - all round good teacher, deserves a bonus
- Very good at explaining difficult concepts and uses graphs and illustrations to make things clear which I really appreciate. Also is very helpful during office hours and after class if I still had any doubts.
- Very nice, answers and entertains all questions. Explains the content very well.
- Very passionate about economics - instilled some of that passion in me. Humorous and encouraging. Appreciate that he would randomly pick on students to answer from time to time to gauge level of understanding of the class.
- very positive and cheerful
- Vry good

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- Derivations are normally skipped and taught very swiftly in class, but again not sure if it would be a good use of time.
- Exam structure help and advice
- I can't think of anything! Always makes time for questions and gets through the problem set.
- I know it's frustrating when students are not enthusiastic about answering teacher's question, or some students may appear inattentive during class, but please don't call out names... I have severe social anxiety and it discourages me from attending the seminar.
- I think he should have more of a say in how the content is taught; he has a good understanding of the content and how well the students are taking to it.
- I think what Francisco did for the course this semester was perfect.
- N/A
- N/A
- N/A
- Nil
- None, Thank you Manuel!
- Nothing
- nothing- best teacher I've had at LSE

- Perhaps try to get through homework quicker but 1 hr is too little time to cover all the material in depth.
- Sometimes slightly long winded so it could get a bit confusing
The assignments (eg mid term, mock exam) were marked but there was no additional feedback (just the grade)
- Sometimes we cannot finish going through all material within the hour
- Think it would be nice if he fed back some of the main questions/confusions brought up in office hours to the rest of the class
- Timing of feedbacks
- would appreciate if marking comments were annotated directly on the working, rather than just giving marks for assignments
