- Amazing teacher. Explains all the content intuitively (incredibly valuable and underrated - I have not seen any other teacher really go to the first principles to grasp the concept), stops for questions and stimulates class discussion but never at the expense of going through everything people want to do. It goes without saying, very enthusiastic. The best teacher I've had amongst all my modules this term!
- Explained concepts very thoroughly
- Great understanding of the content, great teaching, great enthusiasm.
- He is energetic and passionate about each topic. His didactic method simplifies concepts down to help me understand better. He makes great notes and is always great at responding to emails.
- This teacher's lessons were consistently engaging and well organised. He broke down concepts really well and always took the time to make sure students understood before moving on.
- Very good at explaining PS and concepts!
