1. was my teacher

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

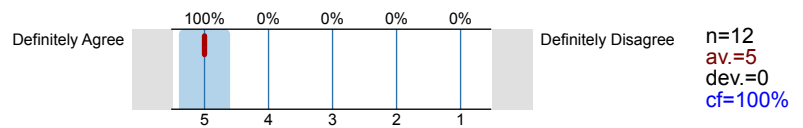

- A fantastic teacher - really energetic and clearly cared about the students' understanding. Liked how he gave an overview at the start of each session to tell us the key bits of information we needed to know.
- Francisco's teaching is excellent in that he answers every question very patiently and allows time for the student who asked the question to absorb the answer. He was also always willing to stay longer for any additional questions and answered those with the same diligence. I really appreciated his enthusiasm despite the class being late in the day and it being his second class.
- Francisco was absolutely fantastic. He was well-prepared for class and provided handwritten notes to communicate his procedure for solving the problem sets. The pace was perfect - we covered all we needed to and he managed the time available very well. Throughout the classes he paused regularly to check if students had questions and he answered those questions clearly and fully, building up from basics, and explaining and communicating in different styles to aid understanding. He posed questions to the class and encouraged us to contribute to discussion. He ran an additional office hour before the exam to clear up any lingering questions.
- Francisco went far and beyond to explain not only the problem sets but also the general concepts. He was very generous with his time and even gave us additional office hours.
- Francisco really took the time to make sure that all of us understood the concepts well and were on the same page. Francisco encouraged questions and took us through the thought process, working from the ground up and was always available for any queries
- He always made sure that everyone understands everything and He was really passionate about teaching all the concepts. He did a great job.
- He was enthusiastic about helping students understand. He explained as clearly and responded to students' questions appropriately. He also tried to suite each students' needs.

- This guy is absolutely amazing. He is hands down one of the best teachers I've ever had in my life. As someone who loves to teach, I strive to teach like him. If someone doesn't understand something, he explains it in the most simple way possible that even a child could understand. There's no ego in his teaching. And he always solves your issue, and is very patient with it. He finds the root of the thing you don't understand and wittles it down to something so easy that anyone could understand it. He always illustrates everything with diagrams which is helpful for the visual learners like myself. And he always takes time to teach the content that was covered in the lecture at the start of the seminar, which is super super helpful. It gives you time to ask more questions in a smaller class.
- Very good teacher, very enthusiastic and fosters participation. Something that could maybe improve the classes is a quick introduction on the topics that are covered each class.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- Francisco's notes were at times somewhat hard to follow as they were quite condensed and not structured very efficiently.
- N/A
- None
- Nothing he's perfect.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
